Sustainable Certification Services Ltd.

Effluent Treatment Plant (ETP) Audit

Sustainable Certification Services Ltd. (SCSL) conducts comprehensive Effluent Treatment Plant (ETP) audits to evaluate whether industrial facilities are properly treating their wastewater before releasing it into the environment. The goal is to ensure that treatment processes are effective, meet national and international environmental regulations, and align with the facility's sustainability goals. This helps reduce pollution, protect water resources, and demonstrate a responsible environmental management approach.

Our Certification Process Includes

-  System Assessment & Compliance Check
-  Process & Flow Analysis
-  Monitoring & Performance Evaluation
-  Documentation Review
-  Gap Identification & Recommendations
-  Training & Awareness Support

Why Choose us for Your Energy Audit

-  Qualified auditors with expertise in wastewater treatment systems
-  Alignment with international environmental and buyer compliance standards
-  Clear, actionable audit reports with performance benchmarks
-  Support for sustainability certifications and ESG reporting
